Designated Safeguarding Lead's Signature:

Principal's Signature:

The Jack & Jill Family of Schools is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils achieve their potential.

The Jack & Jill Family of Schools promotes equality of opportunity and anti-discriminatory practice. We ensure that every child is included and not disadvantaged because of ethnicity, culture or religion, home language, family background, learning difficulties or disabilities, gender, or ability. We promote the principles of fairness and justice for all through the education that we provide in our School.

1. Introduction and policy aim

The Jack and Jill Family of Schools has a duty to keep children safe. This includes how we protect children from harm and how we should respond when we suspect or confirm that a child is being harmed.

Children are at the centre of everything we do at the Jack and Jill Family of Schools. We are committed to providing our children with a sense of belonging and an environment that is welcoming, safe, valuable and respectful. Adults in our school know that keeping children safe is everybody's responsibility and that all children, regardless of age, gender, culture, language, race, ability, sexual identity, religion, or lack of religion have equal rights to protection and opportunities.

We aim to ensure that:

- The school has a clear process in place, which is shared with and followed by all members of the school community when there is a safeguarding concern.
- Our staff are well trained to recognise the signs of abuse or neglect, that they understand what their responsibilities are and how they should respond when they identify a concern.
- We keep track of children known or thought to be at risk of harm.
- We communicate well with all involved when there is a concern about a child, including parents/carers, pupils, staff, and agencies. This includes sharing information quickly and appropriately with external agencies, such as the police and children's services, to get children the support and help they need in good time.

2. Definitions

Safeguarding means the process for protecting children from harm and abuse, whether that is within or outside the home, as well as online. This includes:

- taking action to ensure that children have the best outcomes
- making sure that the way children grow up is consistent with providing safe and acceptable care
- preventing barriers to children's mental and physical health or the way they develop.

- providing help and support to meet the needs of children as soon as problems emerge.

Child protection means the processes carried out to protect children identified as suffering or being at risk of suffering significant harm.

Staff refers to all working for or on behalf of the Family of Schools, full time, or part time, temporary or permanent, and in either a paid or voluntary capacity. This includes, but is not limited to, employed staff, contractors, volunteers, supply staff and self-employed staff.

Child means everyone under the age of 18.

Parent means birth parents and other adults who are in a parenting role, for example stepparents, foster carers, and adoptive parents.

Statutory means what has been decided or is controlled by the law.

Statutory guidance tells us what schools and local authorities must do to follow the law.

The local safeguarding partnership has three safeguarding partners:

1. the chief officer of police for an area falling within the local authority (police)
2. the local authority (children's services), and
3. the Integrated Care Board for an area within the local authority (health).

In Kingston and Richmond, the local safeguarding partnership (KRSCP) considers the safeguarding needs of the local area and develop a joint response to address them.

Wherever local safeguarding arrangements are referred to in this policy, they mean the arrangements agreed and published by KRSCP or the [London Child Protection Procedures and Practice Guidance](#).

The Jack and Jill Family of Schools publishes its Safeguarding and Child Protection policy on its website and hard copies are available on request from the school office.

Children's services

Achieving for Children (AfC) single point of access (SPA)

Anyone can tell SPA about a child, young person or parent/carer who needs support in the boroughs of Kingston and Richmond. This could be a concern about how the child is developing, issues that the parent or carer is experiencing, or you suspect a child is being neglected or subjected to physical, sexual, or emotional abuse.

SPA can be contacted on the [Single Point of Access \(SPA\)](#) website.

If a child is in **immediate danger**, the police should be contacted on 999.

If it is not an emergency, but there is a concern that a child is at risk, SPA should be contacted by phone on 020 8547 5008. If it is outside of office hours and urgent, the SPA duty social worker can be spoken to on 020 8770 5000.

This government website will help identify which local council to report child abuse to and their contact details: [Report child abuse to a local council – GOV.UK](#).

Go to [section 6](#) of this policy for in-school procedures.

Local authority designated officer (LADO)

Every local authority has a legal responsibility to have a LADO who is responsible for organising the response to concerns/allegations that an adult who works with children may have caused them or could cause them harm. They will be informed within one working day of any allegations that come to our attention. The LADO will give advice and guidance to employers, such as the headteacher, to make sure that any allegation is dealt with fairly and quickly, ensuring that the child is protected effectively.

The LADO can be contacted by:

Email: LADO@achievingforchildren.org.uk

Telephone: 07774 332675

Online: [Submit LADO referral form](#)

4. The law (legislation) and statutory guidance

In addition to KRSCP's [arrangements](#) and the [London Child Protection Procedures and Practice Guidance](#), the Jack & Jill Family of Schools also follows the laws and statutory guidance below:

[Keeping children safe in education 2024 guidance](#), (KCSiE), sets out the legal duties all schools must follow to safeguard and promote the welfare of children and young people under the age of 18 in schools and colleges.

[Statutory framework for the early years foundation stage 2024](#) sets the standards that all early years providers must meet to make sure that children learn and develop well and are kept healthy and safe.

[Childcare \(Disqualification\) and Childcare \(Early Years Provision Free of Charge\) \(Extended Entitlement\) \(Amendment\) Regulations 2018](#)

and the [Childcare Act 2006](#) set out who is disqualified from working with children.

[Working Together to Safeguard Children 2023](#) guidance produced by the government states how practitioners, such as teachers, social workers, the police, and health professionals working with children and families should work together to make sure that children and young people remain safe from harm.

[Education Act 2002](#), section 175

[The Education \(Independent School Standards\) Regulations 2014](#) places a duty on independent schools to keep children safe and promote the welfare of pupils.

The [Children Act 1989](#) is the main source of child safety law for England and Wales. The Act gives the basis for most of children's services' duties and responsibilities towards children and their families. It also provides the legal framework for the child protection system. The [2004](#) amendment is used alongside the Act.

The [Children Act 1989 Care Planning, Placement and Case Review](#) sets out what responsibilities education settings have for children looked after by the local authority.

[The Human Rights Act 1998](#) sets out the core rights and freedoms that everyone in the UK is entitled to and contains the Articles and protocols of the [European Convention on Human Rights](#) (the Convention) that apply in the UK. Experiencing harassment, violence and/or abuse, including that of a sexual nature, may breach any or all of these rights.

The [Equality Act 2010](#) states that schools and colleges must not unlawfully discriminate against pupils because of their sex, race, disability, religion or belief, gender reassignment, pregnancy and maternity or sexual orientation (called protected characteristics). Therefore, we can take positive action to deal with disadvantages affecting our pupils with protected characteristics to make sure their needs are met. [The Equality Act 2010: advice for schools](#) advises us further.

[The Public Sector Equality Duty \(PSED\)](#) states that we have to be mindful of the need to eliminate unlawful discrimination, harassment, and victimisation. Some pupils or students may be more at risk of harm from specific issues such as sexual violence, homophobic, biphobic or transphobic bullying or racial discrimination.

It is important to make sure we foster good relations between those who share a protected characteristic and those who do not, and work to make sure pupils have equal opportunities. We give specific attention to this duty when we write our policies or make any decisions about how our school is run.

Further, and more specific, legislation is covered throughout this policy in the relevant sections. Some government guidance is not statutory – instead, it supports practitioners, like school staff, in the decisions we need to make to keep children safe. Where possible, links to non-statutory guidance have been included in the relevant sections.

5. Roles and responsibilities

Everybody in our school has a responsibility for safeguarding. Some members of our school have specific safeguarding responsibilities.

The Proprietor/Principal – Karen Papirnik

The proprietor is responsible for assuring the DSL and school leaders ensure robust safeguarding process and that this is at the forefront of everything carried out at the Family of Schools, specifically that:

- safeguarding, and the child's best interests, wishes and feelings, are considered in everything the school does; everyone at the school is involved in the whole school approach to safeguarding and online safety is a theme throughout
- the school's policies, procedures and training follow the local safeguarding partnership arrangements and the law, including the school's duties under the Human Rights Act 1998, Data Protection Act 2018, and Equality Act 2010
- the school's leadership team are held to account for the school's safeguarding arrangements
- safeguarding is a standing item on the agenda for all meetings
- The DSL is given the additional time, funding, training, resources, and support needed to carry out the role effectively and there is cover by an equivalently trained deputy if the DSL is absent
- there is an appointed designated teacher for looked after children who is appropriately trained.

- the SLT considers children who are more at risk of harm and any barriers that can make it difficult to recognise abuse and/or neglect affecting pupils with special educational needs and disabilities (SEND)
- child protection files are maintained as set out in Annex C of KCSiE
- the school adds to multi-agency working and shares information appropriately and in a timely manner
- all staff receive regular safeguarding information, updates, and in-depth training
- staff read the appropriate part of KCSiE
- pupils are taught about keeping themselves and others safe, including when online
- that staff do all they can to limit children's exposure to online risks from the school's IT systems and assign a member of the senior leadership team to ensure standards are met
- appropriate safer recruitment processes and procedures are in place
- procedures are in place to identify and address children absent from education, particularly where this happens repeatedly and there are safeguarding concerns for the pupil
- procedures are in place to manage safeguarding concerns about staff and how concerns should be reported; the LADO will manage any allegations against the Principal as she is also the Proprietor of the school and related to the DSL
- there are effective safeguarding arrangements if a site is hired/let
- alcohol is not consumed by staff on school trips, events either on or off site
- all staff receive safeguarding training at induction, which is regularly updated
- she meets regularly with the DSL and attends the schools, asking questions to monitor how the school's safeguarding policies and procedures work in practice
- she is part of the annual safeguarding audit, led by the DSL and school leads, and ensures it is submitted to the KRSCP
- she attends appropriate training that assists in monitoring and progressing any areas

of weakness in the school's safeguarding arrangements

- she keeps up to date with the KRSCP's safeguarding arrangements and guidance
- the DSL has sufficient time, training, support, and resources to carry out the role and there is cover by an equivalently trained deputies if the DSL is absent.

The Designated Safeguarding Lead (DSL) – Cara Ventham

Cara Ventham has lead responsibility for safeguarding and child protection (including online safety, understanding the filtering, and monitoring systems and processes in place).

The DSL is a senior member of staff from our school's leadership team. Cara Ventham has deputy DSLs to support her in her role. While she may hand over some activities to a deputy, the DSL always has the ultimate responsibility for keeping children safe.

The full responsibilities of the DSL and the deputy DSL(s) are listed in their job descriptions. The DSL's responsibilities include, but are not limited to:

- reading and following KCSiE
- always being available during school hours for staff in school to discuss any safeguarding concerns or arrange appropriate cover for any out of hours or out of term activities
- working together with all staff to understand the whole picture when there are safeguarding concerns, providing them with advice, support, and expertise
- contributing to the assessment of children, including taking part and/or supporting other staff to take part in strategy discussions and meetings between multiple agencies
- working together with and supporting parents/carers and families who may be facing challenging circumstances and, when there are safeguarding concerns, making parents/carers aware of the Jack and Jill Family of Schools role in making referrals about suspected abuse, neglect and exploitation
- understanding the importance of sharing information, including referring cases to

relevant agencies eg, children's services, the police, the Channel Programme and/or the Disclosure and Barring Service (DBS) when appropriate, and supporting staff who make referrals directly

- understanding and following AfC's and KRSCP's safeguarding procedures, in addition to attending the termly DSL forums provided by KRSCP to ensure they are acting in line with the local safeguarding arrangements
- keeping the heads of schools/lead teachers/SLT up to date with safeguarding issues
- having lead responsibility for online safety, and oversight and checking the effectiveness of filtering and monitoring systems and their reports
- being aware of the requirement for children to have an Appropriate Adult, as described in [PACE](#)
- working with the 'case manager' and LADO for child protection concerns that involve a staff member
- making sure child protection files are up to date.
- making sure all staff have access to this policy (and the wider safeguarding procedures) and that the policy is available publicly and reviewed annually
- making sure that all staff (including third-party staff and contractors) have an adequate and appropriate safeguarding induction, regularly updated safeguarding training and annually sign to say they have read the relevant part of KCSiE
- working alongside the Principal to update and review procedures and how they are being implemented, including jointly completing an annual safeguarding self-audit and submitting it to KRSCP
- promoting the educational outcomes of pupils who have or had a social worker, by sharing information about child protection issues with teacher and leadership staff
- encouraging a culture of listening to children, considering their wishes and feelings when any plans are put in place to protect them.

Designated Safeguarding Deputies (DSD) – Nick Hitchen, Martha Robinson, Virginia Humpage, and Daniela Panniello:

- are trained to the same standard as the designated safeguarding lead
- will take on the designated safeguarding lead's responsibilities if unavailable. If the designated safeguarding lead is long-term absent, a deputy will temporarily take over as the designated safeguarding lead.

Further responsibilities of the DSL are listed elsewhere in this policy. For a detailed explanation of the DSL's responsibilities, see Annex C of KCSiE.

The Heads of School/Lead Teachers/SLT

This group of leaders (also DSDs) are responsible for ensuring that:

- this policy and other safeguarding-related policies and procedures (such as the staff behaviour policy) are shared at induction, understood by all staff, including temporary staff and volunteers, and are being followed at all times
- staff receive safeguarding training, which is updated regularly
- parents and carers are aware of this policy and where they can access a copy
- visitors are appropriately supervised or escorted, where necessary
- systems are in place for children to express their views and give feedback, which is used to inform the whole school approach to safeguarding
- they become the 'case manager' when an allegation is raised about a member of staff (see Appendix 2) and make the final decision regarding all low-level concerns
- there are enough staff per child (staff ratios), where relevant and applicable
- each child in the Early Years Foundation Stage is assigned a key person
- appropriate arrangements are put in place for the supervision of staff who have contact with children and families.

Head of IT – Omar Ali:

- manages the filtering and monitoring systems

- providers filtering and monitoring reports
- completes actions following concerns or checks to the system.

All school staff:

- are required to read the relevant part of KCSiE annually & sign to confirm understanding of their responsibilities
- have responsibility for providing a safe environment in which children can learn
- follow the school's procedures for identifying and reporting any concerns and issues about the school's online filtering and monitoring systems
- follow the school's safeguarding and child protection processes and procedures, sharing information quickly when they have a concern about a child's safety and wellbeing, even when unsure
- whenever necessary, refer safeguarding or child protection concerns to external agencies, such as the police, children's services, and LADO
- create a culture where children who identify as lesbian, gay, bisexual, transgender (LGBT) or are gender questioning feel safe, can speak out and share concerns
- attend safeguarding training appropriate to their role and are familiar with key policies, including this policy and the staff behaviour policy (code of conduct).

What staff need to know is covered in the training section of this policy.

6. What to do if you have concerns about a child's welfare

If staff have any concerns about a child's welfare, they must act on them immediately by following the procedures below. Staff can use the [What to do if you're worried a child is being abused](#) government guidance alongside the school's procedures. We work hard to ensure our staff and safeguarding team are approachable and available, such that anyone can speak to them about any concern quickly, no matter how small or whether there is evidence.

We recognise the significant emotional impact being involved with, or aware of, safeguarding incidents. **Contact our safeguarding team if**

you need any support during or following a safeguarding incident you have been involved in. The names of the DSL and deputies are displayed in the schools. Information is also given to visitors when they sign into the school using the entry system.

If a child is in immediate danger, or is suffering or likely to suffer significant harm

Make a referral to the police and/or children's services immediately if a child is in immediate danger or is suffering or likely to suffer significant harm.

Anyone can make a referral. Call the police on **999** if a child is in immediate danger. **Anyone** can make a referral to children's services if a child is suffering or likely to suffer significant harm.

Usually, the DSL or deputy makes the referral. For children's services' contact details, [click here](#).

If you make a direct referral, you will update the DSL or a deputy as soon as is practically possible.

Disclosures

We recognise that it takes a lot of courage for a child to disclose they are being harmed.

Staff know that:

- children may not feel ready or know how to tell someone they are being harmed
- the child may not realise what is happening to them as harmful
- they may feel embarrassed, humiliated or are being threatened, due to factors including vulnerability, disability and/or sexual orientation or language barriers.

Our staff know they must show professional curiosity, i.e., explore and try to understand

what is happening for an individual or family, rather than take what is being said at face value or make assumptions. We encourage staff to ask the pupil if they are OK or if they can help in any way.

A child who makes a disclosure may have to tell their story more than once, e.g., to the police and/or social workers. At the Jack and Jill Family of Schools, we know how important it is that a child's first experience of talking to a trusted adult about a worry is a positive one.

Handling a disclosure

- Listen carefully and believe in what a child is saying; do not be afraid of silent moments.
- Be careful not to express your own views or feelings and stay calm.
- Do not investigate; only ask enough questions to work out if you need to share this matter with the DSL or a deputy. Only ask open questions, such as: How? When? Who? Where? and open statements, such as: "Tell me," "Describe" and "Explain." Otherwise, you may invalidate your evidence (and the child's) in any later court proceedings.
- If there are injuries or marks on the child, do not examine the child intimately or take pictures.
- Reassure them that they have done the right thing by telling you; do not say to the child that you wish they had told you sooner.
- Do not automatically offer physical touch to comfort the child; consider what may be comforting for the child, rather than how you prefer to be comforted.
- Tell the child it is not their fault, and you are taking them seriously.
- Explain what you will do next; tell the child that you cannot keep what they have told you secret and that you will pass this information onto someone who can help.

After a child has made a disclosure

- Write up the conversation as soon as possible.
- Make sure the DSL or a deputy is aware of the disclosure. If appropriate, contact children's services and/or the police directly and tell the DSL as soon as possible.
- Do not share the disclosure with anyone else unless children's services, the police or another relevant agency involved in the safeguarding process tells you to.
- Get support for yourself if you need it.

Recording a disclosure or safeguarding concern

- Record the date, time, place, and people present.
- Use the child's own words, verbatim where possible, and stick to the facts; avoid making

assumptions and do not put your own judgement on it.

- Record any noticeable non-verbal behaviour; detail any visible marks or injuries and record them on a body map.
- Keep any original notes you have made on file by taking a photograph of them using the school iPad and uploading the photographs as an attachment to your CPOMS report.
- Do not ask children to make written statements themselves or sign records.

Concerns about a child who is not in immediate danger, or suffering or likely to suffer significant harm

The flowchart on page 15 explains what you should do if you have concerns about a child.

First, speak to the DSL or a deputy. If in exceptional circumstances, the DSL or a deputy are not available, this must not delay you from taking appropriate action. Instead, take advice from children's services, if necessary.

Early help

Early help is support for children of all ages that improves a family's resilience and outcomes or reduces the chance of a problem getting worse. At the Jack and Jill Family of Schools, we are keen to provide support to families as soon as a problem becomes visible. If an early help assessment is appropriate, the DSL or a deputy will lead on working together with other agencies and set up an inter-agency assessment, as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as lead practitioner.

Our DSL and/or deputies use the Early Help Partnership Tool to explore emerging needs and, with consent from the child or family, discuss with the relevant Early Help Resilience Network to ensure all identified needs are supported effectively and to get multi-agency support.

Achieving for Children's early help assessment tools and plans can be found here. The partnership's Early Help Strategy sets out their aims for how professionals work effectively together to provide early help.

If early help support is appropriate, it will be kept under constant review. A referral to

children's services may be required if the child's situation does not appear to be improving. The DSL is aware of the local escalation policy and procedures.

We are aware any child may benefit from early help. Staff who work directly with children will be particularly alert to the potential need for early help for children listed under Part 1, paragraph 18 of KCSiE.

Referral to children's services

Concerns about a pupil or a disclosure should be discussed with the DSL who will help decide whether a referral to children's services is appropriate. If a referral is needed, then the DSL should make it. However, anyone, including children, can make a referral and if for any reason a staff member thinks a referral is appropriate and one has not been made, they can and should consider making a referral themselves. Where referrals are not made by the DSL, the DSL should be informed as soon as possible.

If you have not had any feedback from children's services within 72 hours of making the referral, this must be followed up. If after a referral the pupil's situation does not appear to be improving, the DSL (or whoever made the referral) should press for re-consideration to ensure their concerns have been addressed and, most importantly, the child's situation improves. [The Resolving professional differences – Kingston and Richmond Safeguarding Children Partnership](#) procedure will be used, where necessary.

If a child is at risk of female genital mutilation or it has taken place

Female genital mutilation (FGM) is illegal in England. It involves removal, part removal or injury to the female genital internal or external organs for non-medical reasons. It is sometimes known as 'cutting' or female 'circumcision.'

Teachers

For this section only, teachers means qualified teachers or persons who are employed or engaged to carry out teaching work in schools and other institutions.

All staff should speak to the DSL (or a deputy) when a concern about female genital mutilation (FGM) arises. If a teacher suspects that FGM

has been carried out on a child or believes that the child is at risk of FGM, they will follow their internal safeguarding procedures.

Teachers who come to know, in the course of their work, that FGM has been carried out on a child **must directly** report this to the police. Failure to do so will result in disciplinary sanctions. The teacher should tell the DSL or a deputy who will support them in making a direct report to the police. The teacher may need to support a referral to children's services. Staff will never examine children.

Other members of staff

Other members of staff who establish that an act of FGM appears to have been carried out on a child or suspect a child is at risk of FGM, will follow the same procedures as with any other concern, i.e., staff will speak to the DSL or a deputy and follow local safeguarding procedures.

Concerns about nudes or semi-nudes

Responding to any incident that comes to your attention:

- **Report** it to your designated safeguarding lead (DSL) or equivalent immediately using the school's reporting procedures set out in this policy.
- **Never** view, copy, print, share, store or save the imagery yourself, or ask a child to share or download – this is illegal.
- **If you have already viewed the imagery** by accident (e.g., if a young person has shown it to you before you could ask them not to), report this to the DSL (or equivalent) and seek support.
- **Do not delete** the imagery or ask the young person to delete it.
- **Do not** ask the child/children or young person(s) who are involved in the incident to disclose information regarding the imagery. This is the responsibility of the DSL or a deputy.
- **Do not** share information about the incident with other members of staff, the young person(s) it involves or their, or other, parents and/or carers.
- **Do not** say or do anything to blame or shame any young people involved.

- **Do** explain to them that you need to report it and reassure them that they will receive support and help from the DSL or a deputy.

Staff reserve the right to confiscate a device in the possession of a pupil if they have concerns about sharing nudes or semi-nudes in relation to the device. This is consistent with the government's [Searching, screening and confiscation: advice for schools](#) guidance.

The DSL will follow the government's [Sharing nudes and semi-nudes: advice for education settings working with children and young people](#) guidance. Once they are aware of an incident, the DSL will hold an initial review meeting with appropriate staff. This may include the staff member(s) who heard the disclosure and the safeguarding or leadership team who deal with safeguarding concerns.

The initial review meeting will consider the initial evidence and aim to establish:

- whether there is an immediate risk to any child or young person
- if a referral should be made to the police and/or children's social care
- if it is necessary to view the image(s) to safeguard the child or young person – in most cases, images or videos should not be viewed
- what further information is required to decide on the best response
- whether the image(s) has been shared widely and via what services and/or platforms; this may be unknown
- whether immediate action should be taken to delete or remove images or videos from devices or online services
- any relevant facts about the children or young people involved that would influence risk assessment
- if there is a need to contact another education setting or individual
- whether to contact parents or carers of the children or young people involved – in most cases they should be involved.

The DSL will make an immediate referral to the police and/or children's services if:

- the incident involves an adult
- there is reason to believe that a child or young person has been coerced,

blackmailed, or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs)

- what they know about the images or videos suggests the content depicts sexual acts that are unusual for the young person's developmental stage or are violent
- the images involve sexual acts and any pupil in the images or videos is under 13
- they have reason to believe a child or young person is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example, if they are presenting as suicidal or self-harming.
- they become aware of a computer-generated indecent image of a child, commonly called 'deep fakes' and 'deep nudes' i.e. a digitally manipulated or artificial intelligence-generated nude and semi-nude.

If none of the above applies, we can decide to respond to the incident without involving the police or children's services. We may escalate the incident at any time if further information/concerns are disclosed later. First, the DSL will be confident that they have enough information to assess the risks to any child involved and the risks can be managed within our school's pastoral support, behaviour procedures and, if appropriate, the local network of support.

The DSL or a deputy will contact children's services if any child or young person involved is already known to them. If, because of the investigation, the DSL (or equivalent) believes there are wider issues that meet the threshold for children's services' involvement, they will make a referral in line with this policy and local safeguarding procedures.

Viewing the imagery

The decision to view any imagery will be based on the professional judgement of the DSL or a deputy and will comply with this policy. Imagery will never be viewed if the act of viewing will cause significant distress or harm to a pupil. If a decision is made to view imagery, the DSL will be satisfied that viewing:

- is the only way to decide whether to involve other agencies because it is not possible to establish the facts from any child or young person involved

- is necessary to report it to a website, app, or suitable reporting agency (such as the IWF) to have it taken down, or to support the child, parent, or carer in making a report
- is unavoidable because a child or young person has presented it directly to a staff member or nudes or semi-nudes have been found on a school device or network.

Deletion of images

If the school has decided that other agencies do not need to be involved, then consideration will be given to deleting imagery from devices and online to limit any further sharing. This decision will be based on the DSL's or a deputy's judgement in line with the guidance.

There is further information in the [Sharing nudes and semi-nudes](#) section of this policy.

Child-on-child abuse, including sexual violence and sexual harassment

Responding to allegations of child-on-child abuse:

- Follow the 'handling a disclosure' procedure set out above. You must make a record of the allegation and inform the DSL or a deputy.
- If the DSL and a deputy are not available, the staff member should contact the relevant children's services e.g., the Single Point of Access in Kingston and Richmond.

The DSL or a deputy will decide from the following options depending on the level of risk or harm:

1. Manage the concern internally providing pastoral support to all those involved.
2. Complete an early help assessment.

3. Make a referral to children's services and/or, where necessary, the police. The DSL may choose to consult children's services to assist with deciding.

The police will still be informed of any criminal offences, even if the child is aged under the criminal age of responsibility. The police will take a welfare approach.

The DSL or a deputy will contact the parents or carers of the children involved at the earliest opportunity and where appropriate. Records will be kept of all concerns, any discussions had, and any outcomes reached. If a criminal offence has been committed or is being investigated, the DSL will work closely with the police to avoid impacting the criminal process while protecting children or following disciplinary procedures.

Where the DSL, children's services or the police decide the concern should be handled by the school internally, we will thoroughly investigate the concern using our behaviour policy and processes. A risk assessment and prevention plan will be completed when a safeguarding risk has been identified. The plan will be monitored, and a date set for a follow-up evaluation with everyone concerned. We will support all children involved in the incident, including the child/ren who displayed the behaviour and the children who experienced it.

Responding to allegations of sexual harassment and sexual violence

Using the DSL's or a deputy's professional judgement, the school will make decisions about and address the incident based on the Hackett tool (below). We will request the support of other agencies, such as children's services and the police, if necessary.

Normal	Inappropriate	Problematic	Abusive	Violent
Developmentally expected	Single instance of inappropriate sexual behaviour	Problematic and concerning behaviours	Victimising intent or outcome including misuse of power	Physically violent sexual abuse
Socially acceptable	Socially acceptable behaviour within peer group	Developmentally unusual and social unexpected	Coercion and force to ensure victim compliance	Highly intrusive
Consensual, mutual, and reciprocal	Context for behaviour may be inappropriate	No overt element of victimisation	Intrusive	Instrumental violence which is physiologically and/or sexually arousing to the child carrying out the violent act

Shared decision making	Generally consensual and reciprocal	Consent issues may be unclear	Informed consent lacking or not able to be freely given by the victim	Sadism
		May lack reciprocal or equal power	May include elements of expressive violence	
		May include levels of compulsivity		

We follow the local safeguarding arrangements below when an allegation of sexual violence and/or sexual harassment has been made.

- Hackett Inappropriate:** Manage internally using the behaviour policy and pastoral support.
- Hackett Problematic:** Early help response used for non-violent harmful sexual behaviour to prevent escalation.
- Hackett Abusive:** Refer to children's services when a child has been harmed, is at risk of harm or in immediate danger.
- Hackett Violent:** Report to the police if a crime has been committed, such as rape, assault by penetration or sexual assault. We will follow the [when-to-call-the-police-guidance-for-schools-and-colleges.pdf](#) ([npcc.police.uk](#)) guidance.

The management of children and young people with sexually harmful behaviour is complex. The Jack and Jill Family of Schools will work with other relevant agencies to maintain the safety of the whole school community. Where appropriate, immediate measures will be put in place to support and protect the person impacted by the behaviours, any witnesses, and the alleged instigator of the behaviours. A written record will be made, and next steps discussed, considering the views of those impacted by the behaviour.

A risk and needs assessment will be completed for all reports of sexual violence and on a case-by-case basis for reports of sexual harassment. The assessment, which will be kept under review, will consider:

- whether there may have been other people impacted by the behaviour
- the person known to be impacted by the behaviour, especially their protection and support

- the alleged instigator of the behaviour
- all pupils (and, if appropriate, staff) at the school, especially any actions that are appropriate to protect them from the alleged instigator or from future harm
- the time and location of the incident and any action that can make the school safer.

Unsubstantiated, unfounded, false, or malicious reports

If a report is found to be unsubstantiated, unfounded, false, or malicious, the DSL will consider whether the pupil and/or the person who has made the allegation needs help or may have been abused by someone else and this is a cry for help. In such circumstances, a referral to children's services may be appropriate. If a report is shown to be deliberately invented or malicious, we will consider whether any disciplinary action is appropriate according to our behaviour policy.

If a child who has experienced sexual violence or sexual harassment asks the school not to make a referral

If the child does not give consent to share information, the DSL or a deputy will balance the victim's wishes against the DSL's or a deputy's duty to protect them and other children on a case-by-case basis. If a child is at risk of harm, is in immediate danger, or has been harmed, a referral should be made to local authority children's social care, and as rape, assault by penetration or sexual assault are crimes, reports should be referred to the police. Although the age of criminal responsibility is ten, if the child accused is under ten, a referral to the police will still be made. The police will take a welfare, rather than a criminal justice approach, in these cases.

We will do all we can to protect the anonymity of any child involved in any report, including

weighing up which staff need to know and any support which will be put in place. Further, we will consider the potential impact of social media in facilitating the spreading of rumours and exposing the child's identity.

Where an allegation of sexual violence or sexual harassment is progressing through the criminal justice system, our DSL and a deputy will be aware of anonymity, witness support, and the criminal process in general so they can offer support and act appropriately. They will be guided by the [CPS: Safeguarding Children as Victims and Witnesses](#) advice.

Concerns about mental health

If you have a mental health concern about a child that is also a safeguarding concern, you will speak to the DSL or a deputy immediately, unless the child is in immediate danger, in which case you will call the police first.

Although you may be well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one, only appropriately trained professionals should attempt to diagnose a mental health illness. Where necessary, the DSL or a deputy will make a referral to the Child and Adolescent Mental Health Service's (CAMHS) single point of access for Kingston and Richmond [here](#).

Concerns about extremism and radicalisation

Extremism is the vocal or active opposition to our fundamental British values. Radicalisation is the process of a person legitimising support for, or use of, terrorist violence. See [radicalisation and extremism](#) in Appendix 1 for more information.

If you have a concern that a child may be at risk of radicalisation or involvement in terrorism and they are in **immediate danger**, contact the police on **999** or the anti-terrorist hotline on **0800 789 321**. If the child is not in immediate danger, speak with the DSL or a deputy as a first point of call.

The DSL may decide to discuss their concerns with children's services and will make referrals to the police Prevent team and the Channel programme where necessary. The DSL will need

to seek the individual's consent when referring to the Channel programme.

Staff can also raise concerns by emailing counter.extremism@education.gsi.gov.uk, but this is not to be used in emergency situations. If you believe you have information relating to terrorism, you can call the anti-terrorist hotline on 0800 789 321. To report extremism in education, including allegations against staff and institutions, use [this](#) link.

The Prevent leads in Kingston and Richmond are

Kingston:

Stephanie Royston-Mitchell, Community Safety and Resilience Principal
stephanie.royston-mitchell@kingston.gov.uk

Richmond and Wandsworth:

Naheem Bashir, Vulnerabilities Manager
Naheem.Bashir@richmondandwandsworth.gov.uk

How children can report concerns

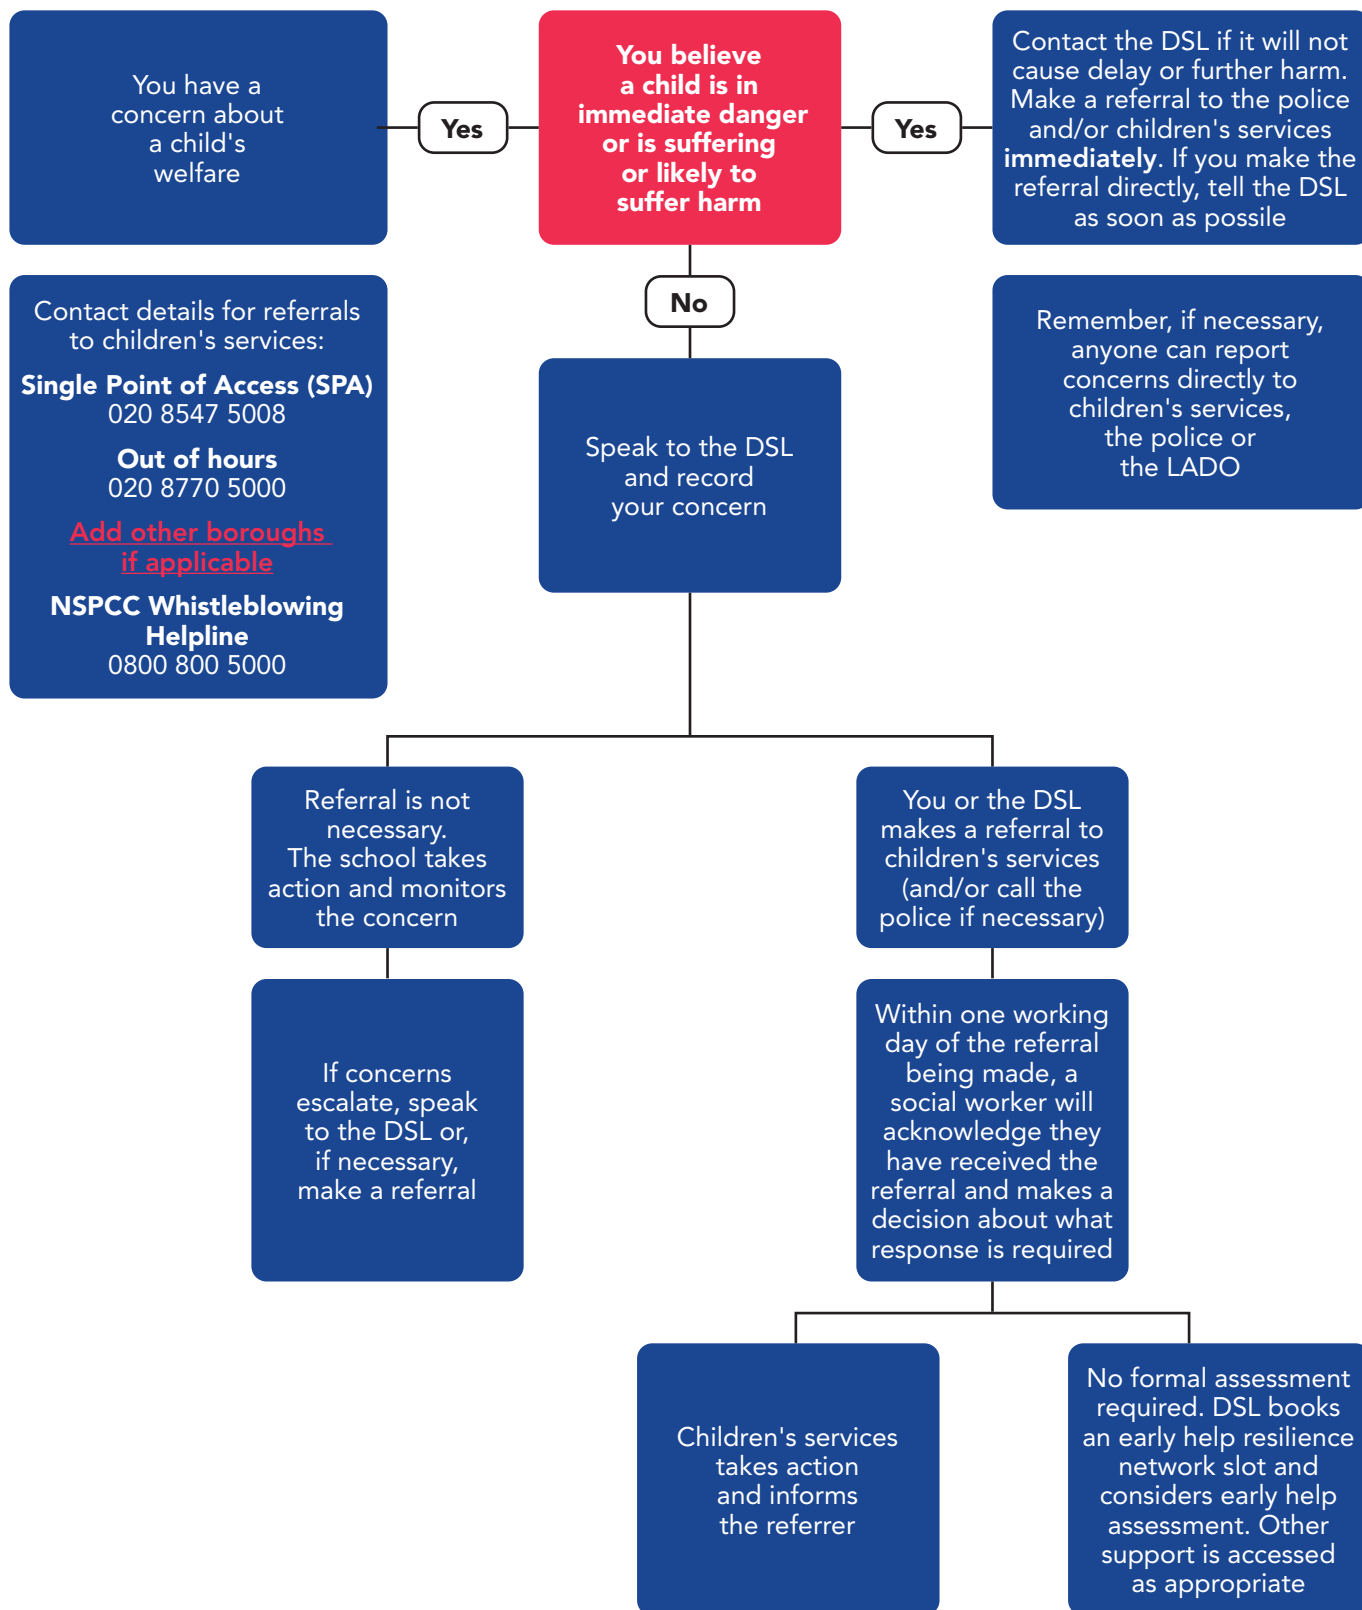

In our school, it is essential that pupils can tell us how they are feeling and know we will take seriously anything they share with us. We aim to create an environment full of 'reachable moments' which encourages pupils to feel safe enough to open up if they are concerned about something. Pupils can confidently report any worries they have about their lives, both in and out of school, by:

- speaking to an adult they trust
- putting a written or an anonymous disclosure in worry box.

Pupils are made aware of how they can report concerns during assemblies, PSHE/Learning for Life lessons and during discussions with their class teacher.

We know children try to get their voice heard not just through what they say but how they behave, as pointed out in the NSPCC's [voice of the child briefing](#). When there are behavioural issues or changes in a child's behaviour we take a safeguarding first approach, including considering if the child is communicating an unmet need and/or abuse. For children who are pre-verbal or non-verbal, observing behaviour and presentation is even more important for understanding the child's lived experience.

Flowchart: what to do if you have concerns about a child

The child's circumstances will be continuously monitored. A re-referral will be made if the child's circumstances worsen or if no improvement is made. If there is a disagreement about the outcome of the referral, the local escalation procedures apply.

7. Confidentiality

The Jack and Jill Family of Schools takes its responsibility to protect and look after the data (information) we hold about pupils and our families seriously.

The Data Protection Act (DPA) 2018 and General Data Protection Regulation (GDPR) guide us in how to do so. Under the DPA 2018, we will share information without consent if 'the safeguarding of children and individuals at risk' is our reason for doing so, and:

- it is not possible to gain consent
- it cannot be expected that a practitioner (for example, teacher) gains consent, or
- to gain consent would place a child at risk.

The government's [information sharing advice for safeguarding practitioners](#), which includes the seven 'golden rules' for sharing information, supports staff who must make decisions about sharing information. Staff are aware they can look at the [data protection in schools toolkit](#) or speak to a member of the safeguarding team if they are unsure about sharing information. Government guidance emphasises that: "The Data Protection Act 2018 and GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children."

We will share information in a timely manner to keep children safe, which will include sharing information with agencies and professionals in line with the Working Together to Safeguard Children 2023 guidance and the [DRAFT Information sharing advice for practitioners providing safeguarding services to children, young people, parents and carers](#). We respect that safeguarding matters are personal to families, so the DSL, deputy and principal will only share information about a child to members of staff and professionals on a need to know basis.

All staff are aware that they cannot make a promise to a child to keep secrets that might impact on the child's safety or wellbeing. Instead, staff should tell the pupil that they may need to pass information on to others who can help and protect them.

Notifying parents or carers

At the Jack and Jill Family of Schools, working alongside and supporting families is a key priority. This involves being open and transparent with parents and carers when we have concerns about their child's welfare, and/or we need to request support from other services to make sure the child's situation improves. If we believe notifying parents or carers could increase the risk to the child or cause further harm, we will seek advice from children's services about how and when parents or carers should be updated.

It is legitimate to share concerns without a parent's or carer's consent when there is good reason to do so and that sharing the information would improve the safeguarding of the child in a timely manner.

8. Record Keeping

Each child has a safeguarding file where all safeguarding concerns and referrals are stored. The designated safeguarding lead is responsible for keeping written records of all concerns, discussions and decisions, including the rationale for those decisions. Records reflect the reason why referrals are or are not made to another agency, such as children's services or the Prevent program. Safeguarding files are stored securely and access with access only given to those who need it.

When pupils leave the Jack and Jill Family of Schools, the school will ensure their safeguarding file is transferred to the new education setting within 5 days of an in-year transfer or within 5 days of the start of a new term. This will be securely transferred separately from other records and a confirmation of receipt will be requested and kept. Where appropriate, the DSL will share information in advance of the pupil transferring so support can be put in place ready for when the pupil starts. When a child starts our school, we will make sure key staff are aware of the safeguarding file as soon as possible.

9. Whistleblowing

A whistleblower is a worker who reports certain types of wrongdoing, and all staff have a duty to do so. We aim to create an environment where staff feel able to raise concerns about poor or unsafe practice and potential failures in how we manage safeguarding. Any concerns

should be raised with the senior leadership team and will be taken seriously. The Jack and Jill Family of Schools Staff Handbook lists ways staff deal with whistleblowing concerns.

Where staff feel unable to raise a concern with our senior leadership team or feel that their genuine safeguarding concerns are not being addressed, there are other options available to them, such as the NSPCC whistleblowing advice line. Staff can call: 0800 028 0285 from 8am-8pm or email: help@nspcc.org.uk.

10. Online safety and the use of smart devices

This section summarises the Jack and Jill Family of Schools whole school approach to online safety and the use of smart devices (e.g., mobile phones, smart watches, tablets etc). Our detailed approach is covered in our ICT policies. The Jack and Jill Family of Schools understands the significant and essential role that we have in making sure children are protected from potentially harmful and inappropriate online material. We consider online safety in every aspect of school life.

Our aim is to:

- have in place processes for online safety that protect our children and staff, including how we identify, intervene, and escalate any online concerns where appropriate
- make sure technology is used responsibly and safely through education
- set clear expectations for the use of mobile phones and smart technology.

We fulfil our aims by:

- educating children to learn how to keep themselves safe when online (using the government's [Teaching online safety in schools](#) guidance), what to do if they are harmed or spot a risk and what the consequences are if they break the school rules about online safety
- engaging with parents and carers about what online safety looks like
- ensure our whole school approach is reflected in all relevant policies
- regularly training staff on online safeguarding risks and how to be online safely

- making sure children, staff, parents/carers, and volunteers sign an understandable acceptable use agreement, which covers how they should use the school's IT systems and their mobile and smart technology
- making parents, carers, pupils, and staff aware that staff can search an electronic device they have confiscated, as explained in [Searching, Screening and Confiscation – GOV.UK](#)
- ensuring appropriate filtering and monitoring systems are in place on the school's network and devices.

Due to the constant changes to online technology and the related harms, we carry out an annual review and risk assessment of our online safety policies, procedures, and systems.

The 4Cs

Being online can be a major source of fun, entertainment, communication, and education. Some people's online behaviour places others at risk. The number of issues covered under online safety is large and constantly growing. They are categorised into these four areas of risk:

Content: being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism.

Contact: being subjected to harmful online interaction with other users, for example peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.

Conduct: online behaviour that increases the likelihood of, or causes, harm, for example making, sending, and receiving explicit images (e.g., consensual, and nonconsensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying).

Commerce: risks such as online gambling, inappropriate advertising, phishing and/or financial scams. If pupils or members of staff report any issues, we will report it to the Anti-Phishing Working Group (<https://apwg.org/>).

Mobile phones and smart technology (including smart watches)

Many children have unlimited and unrestricted access to the internet via mobile phone networks; therefore, children could be harmed or harm others online when at school. This may include sexually harassing, bullying and sharing indecent images (often via large chat groups). To protect children from these risks while they are at our school, our approach to mobile and smart technology is

- Pupils are prohibited from bringing mobile phones to school until and unless they start to walk to school once in Year Six in preparation for Senior School
- In this instance they are permitted to bring a mobile phone to school with the Headteacher's permission. This remains in the pupil's bag whilst at school and is turned off until leaving the site at the end of the school day.
- Staff are unable to access personal mobile phones during the school day. See mobile phone policy and Code of Conduct
- Filming of events is permitted but parents are reminded not to post footage of any child other than their own on social media. Parents can make special arrangements with the school should inclusion of their child and chance of posting on social media put them at risk.
- For staff working at and visitors to Jack and Jill Nursery School no personal mobile phones are permitted in areas used by children. Staff are required to leave these locked in their lockers and use these only in the staff area or resource area whilst on their breaks. No images of children are permitted other than on school ipads/mobile phones and in accordance with our use of images for which parents give consent or otherwise within the permissions on Family.
- The following guidance is helpful for leaders on this site. [Safeguarding children and protecting professionals in early years settings: online safety considerations](#)

Media recordings, audio, image, and video (including digital files)

If we make media recordings of pupils, such as videos or photos, we will seek the child's consent and check their parents' chosen

consent, make sure the pupil is appropriately dressed and encourage the child to tell us if they are worried about any media that has been taken of them. See our staff code of conduct and online safety policy, which cover our school's expectations for staff making media recordings.

Filtering and monitoring

To limit children's exposure to these categories of risk from The Jack and Jill Family of Schools' IT systems, we have strong and effective filtering and monitoring systems, following the government's [Meeting digital and technology standards in schools and colleges](#) guidance. We ensure that:

- specific staff have assigned roles and responsibilities to manage systems
- staff know about the systems in place and how to escalate concerns
- there are annual reviews of the systems, or more frequently if there is a significant change or issue
- our SLT review the systems with the DSL, IT staff and service providers, to find out what more can be done to keep children safe
- the systems are effective for the age range of children and consider children potentially at greater risk of harm
- when we block online content, it does not impact on teaching and learning
- filtering works across all devices including mobile phones and smart technology.

Remote education

When our children are being taught remotely e.g., at home, we will be in regular contact with parents and carers. We will make sure parents and carers are aware of:

- what their child/ren are being asked to do online, including the sites they will be accessing and who from the school will interact with their child/ren
- the importance of children being safe online and offer advice on how to do so
- what systems our school uses to filter and monitor online use.

Information security and access systems

We have procedures in place to protect our IT systems, staff, and learners from cybercrime,

i.e., when criminals seek to exploit human or security vulnerabilities online to steal passwords, data, or money directly. We will follow the governments [Cyber security standards guidance](#). Our procedures and systems are reviewed regularly to keep up with the constant changes to cyber-crime technologies.

11. Children potentially at greater risk of harm

At the Jack and Jill Family of Schools, we know that all children need to be protected from harm. In addition, we recognise that some groups of children are potentially at greater risk of harm. The information below highlights some of those groups of children this applies to; however, there are several other groups not listed.

Children who have a social worker

Children may need a social worker due to safeguarding or welfare needs. Children may need help due to abuse and/or neglect and/or complex family circumstances. The Jack and Jill Family of Schools recognises that a child's difficult experiences and trauma can leave them vulnerable to further harm, as well as disadvantage them educationally.

Children's services share with us which pupils have a social worker. Once we are aware of this, we will use it to make decisions in the child's best interest, i.e., their safety, welfare, and educational outcomes. When a child has a social worker, safeguarding is at the heart of every decision we make, such as how we react to unauthorised absence or children missing education, which themselves carry additional risks. When necessary, we offer extra in-school support to our pupils who have a social worker, such as staff or pupil mentorship, social support groups, weekly check ins and access to our school counsellor.

The Virtual School is a statutory service that exists to provide advice and support for children who have a social worker, children placed in care and previously looked after, such that they can meet their full educational potential. Where needed, our school works with the Virtual School to support these children.

Children looked after and previously looked after

These children are particularly vulnerable. The most common reasons for children becoming looked after is because of abuse and/or

neglect. The Jack and Jill Family of Schools will ensure that staff have the necessary skills and knowledge to keep children looked after, and previously looked after, safe. All staff will have the skills and knowledge to keep these children safe. Appropriate staff will have the information they need in relation to a looked-after child's legal status. For example, who has parental responsibility, who is not permitted to have contact and who is not permitted to know where the child is being educated, and the level of decision-making power the local authority has given the carer.

The designated teacher for children looked after is Cara Ventham.

The statutory guidance [Designated teacher for looked-after and previously looked after children](#) contains further information on the role and responsibilities of the designated teacher. The designated teacher ensures that the school has the up-to-date details of the allocated social worker and the Virtual School headteacher in the local authority that looks after the child. The Virtual School has an additional role of managing extra funding which is used to support children looked after. The designated teacher will work with the Virtual School Head to discuss how the funding can be used to best support the child.

Children with special educational needs, disabilities, and health issues

Our Special Educational Needs Co-ordinator and DSL work closely together to safeguard and support pupils who have special educational needs and disabilities (SEND), when there are any reports of abuse. Our safeguarding curriculum, i.e., the ways we teach pupils to keep themselves and others safe, is adapted to meet the needs of pupils with SEND.

The Jack and Jill Family of Schools is aware that children with SEND, or certain medical or physical health conditions can face additional safeguarding challenges both online and offline, such as:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- these children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children

- the potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs, and the communication barriers and difficulties in managing or reporting these challenges
- cognitive understanding – being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in schools or colleges, or the consequences of doing so.

12. Identified areas of particular risk for our school

At the Jack and Jill Family of Schools we recognise that there are a few areas of particular risk for our school, including:

- Its operation over 3 different sites.
- The location of C.H.P.S on a busy High Street where there has been occasional anti-social behaviour in the adjacent public alleyway.
- Sports, for girls at C.H.P.S, is located off site.
- Building work must be managed during holiday periods whilst a small number of pupils attend the holiday club offered at Jack and Jill Nursery School
- Several young children travel to and from school using our minibus services.
- Increasing number of young children with food allergies/intolerances.

To manage each of the above risks, detailed risk assessments have been completed.

13. Off-site arrangements

Extended school and off-site arrangements

Extended school activities are provided by and managed by the school, so our own safeguarding and child protection policy and procedures apply. When our pupils attend off-site activities, we ensure that effective child protection arrangements, informed by thorough risk assessments, are in place.

When our children attend an alternative provision provider, we continue to be responsible for their safety and wellbeing. We will satisfy ourselves that the placement can meet the child's needs and obtain written confirmation that appropriate safeguarding

checks have been carried out on individuals working at the establishment, i.e. those checks that we would otherwise perform on our own staff. We follow the [statutory guidance for alternative provision](#) and [Achieving for Children's alternative provision policy](#).

Where a parent/carer expresses their intention to educate their child at home (also known as elected home education), we will work together with the parent/carer and other professionals to ensure that this decision has been made in the best interests of the child. We recognise that this is particularly relevant for children who have SEND, are vulnerable and/or have a social worker.

14. Training

Designated safeguarding lead

The designated safeguarding lead attends regular training to prepare and assist her in leading the school's safeguarding response and approach. Additional training or research may be required as local, or school specific safeguarding issues arise. Minimally, the designated safeguarding lead will:

- attend the level 3 multi-agency local safeguarding partnership training within 12 weeks of starting this role and refresh this every two years
- stay up to date with safeguarding knowledge, resources, and changes
- have a good understanding of, and form a good relationship with the Kingston and Richmond safeguarding children partnership by attending the termly DSL forums, sharing learning with staff as appropriate and making sure staff are aware of any safeguarding training on offer
- attend harmful sexual behaviour and Prevent awareness training
- receive and share safeguarding (including online safety) updates (for example, via email, e-bulletins, and staff meetings) with staff
- ensure staff have regularly updated safeguarding training, updating staff who miss training at the earliest opportunity
- gain an understanding of how the school's filtering and monitoring systems work and how they can be best used to keep children safe at the Jack and Jill Family of Schools.

Proprietor/ Principal

The Principal receives safeguarding and child protection training, to assist her in testing and challenging the school's procedures and policies, making sure they are working as they should. The training will be regularly updated.

Additionally;

- The Principal will make sure the designated safeguarding lead has the time and resources to attend training.
- The Principal will receive training about managing allegations against the heads of school/lead teachers to assist her in the eventuality that an allegation is made.
- The Principal will make sure that online safety is a theme in all staff training.
- The Principal will make sure that those involved with the recruitment and employment of staff to work with children have received appropriate safer recruitment training.
- The Principal will make sure that staff attend safeguarding training at induction and regularly after.
- The Principal will attend regular training and receive e-bulletins or equivalent to stay up to date with the latest statutory guidance.

The Principal will make sure at least one member of every recruitment panel has completed safer recruitment training within the last five years. Jack and Jill Family of Schools has a separate safer recruitment policy, which explains what safeguarding checks are completed before employment to make sure those who work with children are suitable.

All staff

We recognise the expertise that staff build up by managing safeguarding concerns daily and, as a result, can contribute to and shape staff training and this policy. All staff receive safeguarding and child protection training (including online safety) at induction. The training is regularly updated and reflects the whole school approach to keeping children safe. In addition, staff receive regular, at least annually, safeguarding updates (for example, via email, e-bulletins, and staff meetings) to provide them with what they need to keep children safe.

Our training is designed to enable staff to;

- can spot the signs of possible abuse, neglect and exploitation
- know the school's safeguarding procedures and their role in carrying them out
- have awareness of and understand their role in the early help process and the process for making a referral to the local authority's children's services, including what may follow a referral
- know what to do if a child tells them they are being harmed, including how to manage this information confidentially
- understand the reasons why children may not feel ready or know how to tell someone that they are being harmed
- receive Prevent training, which will prepare them for identifying children at risk of being radicalised into terrorism and how to challenge extremist ideas
- understand what cyber security the school has in place to keep pupils and staff safe when online at school and how to report any issues
- understand what ineffective filtering and monitoring systems look like and how to report any concerns or issues
- know that children who identify as or are perceived be LGBT can be targeted by other children.

We make sure that staff members provided by other agencies and third parties, for example supply teachers and contracted staff are aware of this policy, our school's safeguarding procedures, and have received appropriate safeguarding training.

The designated teacher for children who are looked after (CLA)

We follow the [Role and responsibilities of the designated teacher](#)'s statutory government guidance. The designated teacher will have training to make sure they understand the needs of children looked after/previously looked after and how they can best be supported to have the same opportunities as their peers. They will work closely with AfC's [Virtual School](#), accessing their training and forums to stay up to date.

15. Teaching and Learning

At the Jack and Jill Family of Schools, we work to prevent our pupils from coming to any harm. We recognise how important it is that we teach and role-model to pupils how to keep themselves and others safe. Our curriculum meets the needs of all pupils, such as pupils with SEND and pupils who have been abused. Weekly PSHE/Learning for Life lessons offer children the opportunity to learn about how to stay safe and what to do if they feel concerned about themselves or others. Sharing concerns is regularly encouraged through these lessons, assemblies, and daily check ins with their class teachers. Further details can be found in the PSHE Programme of Study.

If specific safeguarding issues arise during the school year, the heads of school/lead teachers will ensure the curriculum is adapted to cover current issues.

16. Linked policies

This policy is one of a range of documents that set out what our responsibilities are and how we should carry them out. Other relevant documents include the below policies:

- Behaviour
- Anti-bullying
- Safer recruitment and selection
- Staff behaviour policy/code of conduct

Appendix 1: Types of abuse and specific safeguarding concerns

These appendices are based on the Department for Education's KCSiE guidance.

Abuse is where somebody fails to prevent harm (neglect) or causes harm (abuse). It can take place anywhere, including online and outside of the home. Harm can include witnessing ill treatment of others, for example seeing, hearing, or experiencing the effects of domestic abuse. We are aware that safeguarding issues are rarely standalone events and cannot be covered by one definition or one label alone. In most cases, multiple issues will overlap. Our staff will be aware that technology is a significant part of many safeguarding issues.

Physical abuse is a form of abuse that may involve hitting, shaking, throwing, poisoning, burning, or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve:

- communicating to a child that they are worthless or unloved, inadequate, or valued only as far as they meet the needs of another person
- not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- seeing or hearing the ill-treatment of another, such as in situations of domestic abuse
- serious bullying (including online bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children.

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence,

whether the child is aware of what is happening. The activities may involve:

- physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing
- non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet).

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.

Neglect may occur during pregnancy because of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing, and shelter (including exclusion from home or abandonment)
- protect a child from physical and emotional harm or danger
- ensure adequate supervision (including the use of inadequate caregivers)
- ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

We use the following guidance to help identify and address cases of neglect.

[Handling Cases of Affluent Neglect in Schools](#)
[Local partnership guidance](#)

Indicators of abuse

The following list, provided by the [NSPCC](#), covers some common indicators of abuse and neglect:

- unexplained changes in behaviour or personality
- becoming withdrawn
- seeming anxious

- becoming uncharacteristically aggressive
- lacks social skills and has few friends if any
- poor bond or relationship with a parent
- knowledge of adult issues inappropriate for their age
- running away or going missing
- always choosing to wear clothes which cover their body
- patterns of repeated lateness or absence

It is important that staff report all their concerns, however minor or insignificant they may think they are – they do not need ‘absolute proof’ that the child is at risk.

Specific safeguarding concerns

This section is based on Annex B of KCSIE. Annex B includes further information about other safeguarding issues to be aware of. **All concerns under this section should be addressed in line with the [section 6](#) of this document, unless stated otherwise.**

Children absent from education

All staff will be aware that children missing from education or absent persistently, without explanation and/or for prolonged periods can act as a vital warning sign to a range of safeguarding issues including neglect, child sexual and child criminal exploitation – particularly county lines. Further, it may also indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation, so called ‘honour’-based abuse or risk of forced marriage. We are also aware that absence can increase any existing safeguarding risks.

Attendance is closely monitored at the Jack and Jill Family of Schools to support us in identifying abuse and acting early. Our staff will be aware of our unauthorised absence procedures and children missing education procedures. We notify children’s services if a child who has a social worker is absent from school without a suitable explanation. We make sure we have more than one emergency contact number for each pupil, which supports the school’s procedure for addressing children missing and absent from education. We work in partnership with Achieving for Children when patterns of absence give rise to concern, including notifying them when a pupil leaves our school without a new school being named.

Our attendance policy and procedures are set out in a separate document. The school follows the government’s [Working together to improve school attendance](#) guidance.

[Local partnership guidance](#)

[Children Missing Education statutory government guidance](#)

Contextual safeguarding

Contextual safeguarding, also known as ‘risk outside the home,’ is an approach to understanding, and responding to, young people’s experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people’s experiences of extra-familial abuse can undermine parent-child relationships.

The Jack and Jill Family of Schools. will maintain records of concerns about contextual safeguarding in accordance with our safeguarding procedures. We know the importance of information sharing, therefore if we identify contextual safeguarding concerns about the local area, we will share this information with the contextual safeguarding team for Achieving for Children, contextualsafeguarding.exploitation@achievingforchildren.org.uk. If there is a specific concern about a child, we will consult with the relevant children’s services.

Useful links:

[Local partnership guidance](#)

[Achieving for Children's Risk Outside the Home page](#)

[Tackling Child Exploitation multi-agency Practice Principles](#)

Child sexual exploitation (CSE) and child criminal exploitation (CCE)

We know that different forms of harm often overlap, and that perpetrators may subject children and young people to multiple forms of abuse, such as criminal exploitation (including county lines) and sexual exploitation. In some cases, the exploitation or abuse will be in exchange for something the victim needs or wants (for example, money, gifts, or affection), and/or will be to the financial benefit or other advantage, such as increased status, of the perpetrator or facilitator.

Both can occur online. Children can be exploited by adult males or females, as individuals or in groups. They may also be exploited by other children, who themselves may be experiencing exploitation – where this is the case, it is important that the child perpetrator is also recognised as a victim. Our staff will be aware of a range of factors that could make a child more vulnerable to exploitation. We will provide additional support to children who have been exploited to help keep them in education.

Some of the following can be indicators of both child criminal and sexual exploitation where children:

- appear with unexplained gifts, money, or new possessions
- associate with other children involved in exploitation
- suffer from changes in emotional well-being
- misuse alcohol and other drugs
- go missing for periods of time or regularly come home late, and
- regularly miss school or education or do not take part in education.

Child sexual exploitation (CSE)

CSE is a form of child sexual abuse which can affect any child. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse, including via the internet.

CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge, for example through others sharing videos or images of them on social media. CSE can affect any child who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. Some children may not realise they are being exploited, for example believing they are in a genuine romantic relationship.

CSE can involve force and/or enticement-based methods of compliance and may, or may not, be

accompanied by violence or threats of violence. Some additional specific indicators that may be present in CSE are children who:

- have older boyfriends or girlfriends
- suffer from sexually transmitted infections, display sexual behaviours beyond expected sexual development or become pregnant.

The Jack and Jill Family of Schools follows the London Child Protection Procedures regarding [sexual exploitation](#).

Further information on signs of a child's involvement in sexual exploitation is available in the Home Office's [Child sexual exploitation: definition and guide for practitioners](#).

See the [Sharing nudes and semi-nudes](#) section below for details about 'sextortion'

Child criminal exploitation (CCE)

At the Jack and Jill Family of Schools, we recognise children involved in CCE are victims, despite their engagement in crime. A child may still have been criminally exploited even if the activity appears to be consensual. Staff will be aware that girls are at risk of criminal exploitation too, and that both boys and girls who are being criminally exploited may be at higher risk of sexual exploitation.

Children can become trapped by this type of exploitation, as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others.

CCE can include children being forced and/or manipulated:

- to work in cannabis factories
- into moving drugs or money across the country (county lines)
- to shoplift or pickpocket
- to threaten serious violence to others
- into committing vehicle crime.

Serious violence

Staff at the Jack and Jill Family of Schools will be aware of the indicators, which may signal children are at risk from, or are involved with, serious violent crime.

These may include:

- increased absence from school
- a change in friendships or relationships with older individuals or groups
- a significant decline in performance
- signs of self-harm or a significant change in wellbeing
- signs of assault or unexplained injuries
- unexplained gifts or new possessions (could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation).

All staff are aware of the range of risk factors increasing the likelihood of involvement in serious violence, such as:

- being male
- having been frequently absent or permanently excluded from school
- having experienced child maltreatment
- having been involved in offending, such as theft or robbery.

Being the victim of, carrying out or allegedly carrying out serious violence (e.g. knife crime) may indicate that a child is involved in county lines.

Useful links:

[Preventing youth violence and gang involvement government guidance](#)

[Criminal exploitation of children and vulnerable adults: county lines government guidance](#)

School-related weapons incidents

The Jack and Jill Family of Schools follows the AfC School Related Weapons or Potential Weapons Incidents Protocol. We will inform children's services and the police of any incident involving a weapon or potential weapon. Our teachers have the legal power to search pupils without consent for 'prohibited items,' including weapons covered in the government's [Searching, screening and confiscation](#) guidance.

The Jack and Jill Family of Schools recognises that children and young people involved in school-related weapons incidents, including the person displaying the behaviour, are vulnerable. The Jack and Jill Family of Schools will provide support, protection, and education to develop a full understanding of the implications of carrying, and/or using, weapons.

Children who run away or go missing from home, care, or education

The Jack and Jill Family of Schools recognises that children who run away, go missing or are absent from their normal residence are potentially vulnerable to abuse, exploitation, offending and placing themselves in situations where they may suffer physical harm. The statutory guidance [Children Who Run Away or go Missing from Home or Care](#) requires that every child or young person who runs away or goes missing must be offered a return home interview (RHI) within 72 hours of their return.

When necessary and in conjunction with Achieving for Children or other relevant local authority, the Jack and Jill Family of Schools will facilitate RHIs, both in terms of releasing the young person from their normal timetable to participate in an interview and in providing an appropriate and safe space on the school or college site for the interview to take place. We will follow the Kingston and Richmond Safeguarding Children Partnership's [Missing children](#) procedure when required.

Mental health

With mental health problems, a child might find the ways they are frequently thinking, feeling, or reacting becoming difficult, or even impossible, to cope with. Mental health problems affect around 1 in 6 children. The Jack and Jill Family of Schools recognises that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be trained to recognise the signs of a child who may be experiencing a mental health problem. The Jack and Jill Family of Schools aims to promote positive mental health for all staff and pupils. To do so, we consider the government's [Mental health and behaviour in schools guidance](#).

Our mental health lead is Lindsey Chadwick.

Useful links:

[Local partnership guidance](#)

[Mind](#)

[NSPCC: Child mental health](#)

Domestic abuse

Domestic abuse can include a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial, or emotional, and includes coercive or controlling

behaviour. It can take place inside and outside the home. The [Domestic Abuse Act 2021](#) states that children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse).

These experiences can have a serious and long-term impact on a child's health, well-being, development, and ability to learn. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. The Act states that domestic abuse occurs between at least two people over the age of 16. Therefore, legally, some older children can also commit domestic abuse either in their own intimate relationships or against their parents/carers.

Useful link:

[Local partnership guidance](#)

Homelessness

The Jack and Jill Family of Schools recognises that being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The DSL and deputies are aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

Indicators that a family may be at risk of homelessness include household debt, including new poverty induced by the pandemic; rent arrears; domestic abuse and antisocial behaviour; and/or the family being asked to leave a property. If a child has been harmed or is at risk of harm, a referral to children's social care will be made.

Child-on-child abuse

We recognise that children can abuse other children, often referred to as child-on-child abuse. It can happen inside and outside school and online. This can include, but is not limited to:

- bullying (including online bullying, prejudice-based and discriminatory bullying)
- abuse between children in an intimate relationship
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (including when a child encourages or threatens physical abuse online)
- sexual violence, such as rape and sexual assault (including when a child encourages or threatens this online)

- sexual harassment, such as sexual comments, jokes, and online sexual harassment
- consensual and non-consensual sharing of nude and semi-nude images and/or videos
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- upskirting and initiation/hazing type violence and rituals.

Older pupils may use any of these types of child-on-child abuse to 'recruit' younger pupils into gangs, especially in areas where gangs are prevalent. Young people experiencing child sexual exploitation first hand may be forced to recruit other young people using types of child-on-child abuse. We are aware that boys are more likely to carry out child-on-child abuse and girls are more likely to be impacted by it, but all child-on-child abuse is unacceptable and will be taken seriously.

The Jack and Jill Family of Schools does not tolerate child-on-child abuse. We know that even when there are no reported cases of child-on-child abuse, it could still be happening. We do not downplay child-on-child abuse, especially sexual violence, and sexual harassment, as "banter," "just having a laugh," "part of growing up" or "boys being boys." For pupils to feel safe at our school, we make sure they know child-on-child abuse is not acceptable behaviour and how to report it to a trusted adult if they are experiencing or witnessing it.

It is our duty to minimise the risk of child-on-child abuse. We do this in the following ways:

- Our staff read this policy.
- Our staff are trained to spot the signs that a child is, or may be experiencing, child-on-child abuse and how to report it. They maintain an attitude that 'it could happen here.'
- Our staff challenge any inappropriate behaviour between children, including the use of derogatory language.
- The behaviour policy, which includes our whole school response to abuse, makes sure everyone knows how to behave and how to respond consistently when pupils show unacceptable or abusive behaviour.
- In all areas of school life, such as lessons, assemblies and in the playground, we teach

pupils how to act and to treat other people, including when they are online.

- We have effective systems in place for pupils to report child-on-child incidents.

Child-on-child sexual violence and sexual harassment

Our school is aware of Ofsted's [Review of sexual abuse in schools and colleges](#). The review was carried out because of the large number of testimonies shared on the [Everyone's Invited](#) website, which highlighted the prevalence of sexual harassment and sexual violence.

We know that sexual violence and sexual harassment can happen between two children of any age or sex, from a group of children to a single child or group of children, online and face to face. It is more likely that girls will be impacted by sexual violence and more likely that sexual harassment will be instigated by boys. Sexual violence and sexual harassment exist on a continuum and may overlap. They are never acceptable, and we will not tolerate them. National and local research has made us aware of the prevalence and normalisation of harassment and abuse in school-aged children. No reports do not mean it is not happening here at the Jack and Jill Family of Schools.

Alongside girls, these groups are at higher risk of sexual violence and sexual harassment:

- children with SEND
- pupils who are LGBT or who are perceived to be LGBT by their peers

Children who are victims of sexual violence and sexual harassment will find the experience stressful and distressing. This will, in all likelihood, negatively affect their educational attainment and be worsened if the alleged perpetrator(s) attends the same school. If a child reports an incident, they will be reassured that they have done the right thing by telling a trusted adult, will be taken seriously, supported, and kept safe. We will further reassure those affected that the law is there to protect them, not criminalise them.

We are aware that when a child reports sexual violence or harassment, this may only be the start of a larger disclosure that could transpire over time. When there are reports, we will always consider the effectiveness of our policies and procedures and whether any changes are necessary to reduce the risk of it happening again. This will be in line with the school maintaining a culture of safeguarding.

The Jack and Jill Family of Schools follows Part 5 of KCSIe when considering our response to sexual violence and sexual harassment. These are captured in the child-on-child abuse section of this policy.

Harmful sexual behaviours (HSB)

Children's sexual behaviours exist on a continuum. HSB refers to problematic, abusive, and violent sexual behaviours that are developmentally inappropriate and may cause developmental damage. HSB can occur online or face-to-face. We will always consider HSB in a child protection context. The Jack and Jill Family of Schools recognises that pupils displaying harmful sexual behaviours have often experienced their own abuse and trauma and they will be offered appropriate support.

When considering HSB, we will consider the ages and the stages of development of the children. Sexual behaviour between children can be considered harmful if one of the children is much older, particularly if there is more than two years' difference in age, or if one of the children is pre-pubescent and the other is not. However, a younger child can abuse an older child, particularly if they have power over them, for example, if the older child is disabled or smaller in stature.

Our DSL and deputy will:

- have a good understanding of HSB
- assist in planning the curriculum aimed at preventing HSB
- ensure staff spot and report inappropriate behaviour to prevent an escalation
- incorporate our approach to sexual violence and sexual harassment into the whole school or college approach to safeguarding.

The Jack and Jill Family of Schools' curriculum addresses these issues via the following topics according to the age and stage of development of our pupils:

- healthy and respectful relationships
- what respectful behaviour looks like
- gender roles, stereotyping, equality
- body confidence and self-esteem
- consent

Useful links:

- [Local partnership guidance](#)
- [NSPCC Harmful Sexual Behaviours](#)
- [Stop it Now](#)

Upskirting

The Jack and Jill Family of Schools will ensure that all staff and pupils are aware that 'upskirting' is a criminal offence and will not be tolerated. The [Criminal Prosecution Service \(CPS\)](#) defines 'upskirting' as: "a colloquial term referring to the action of placing equipment such as a camera or mobile phone beneath a person's clothing to take a voyeuristic photograph without their permission."

The Jack and Jill Family of Schools will decide each incident on a case-by-case basis, with the DSL or a deputy taking a leading role and using their professional judgement, supported by other agencies, such as children's social care and the police, as required.

Sharing nudes and semi-nudes

This is defined as the sending or posting of nude or semi-nude images, videos, or live streams online by young people under the age of 18 ([UKCIS, 2024](#)). Alternative terms used by children and young people may include 'dick pics' or 'pics'. It is a form of child sexual abuse. All incidents will be dealt with as safeguarding concerns. The primary concern always will be the welfare and protection of the children involved. While sharing nudes and semi-nudes of them or their peers breaks the law, we know it is important to avoid criminalising young people unnecessarily.

Children might share nudes because of threats and/or pressures from relationships. They might also want to send nudes, but this is usually because they believe they will get something in return. Sextortion is when someone threatens to share or distribute nude or semi-nude images of another person if they do not do what is asked. It can happen to anybody, but many cases involve teenage boys. The explicit imagery may be used to blackmail the young person into sending more images, money, or in some cases, into recruiting more victims. Images can be both real and generated by artificial intelligence.

We are aware of and in response to incidents will use the [alert guidance](#) and support provided by the National Crime Agency and CEOP.

So-called 'honour'-based abuse, including FGM and forced marriage

So-called 'honour'-based abuse (HBA) means incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation

(FGM), forced marriage and practices such as breast ironing. We are aware this abuse often involves a wider network of family or community pressure and can include multiple perpetrators. Therefore, we will consult with children's services before taking any form of action to reduce the dynamic and additional risk factors that might be present as a result.

Female genital mutilation (FGM)

Female genital mutilation (FGM) means all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences. The DSL will make sure that staff have appropriate training to prepare them for spotting signs that a child has been affected by FGM or is at risk of FGM.

[Section 6](#) of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a pupil is at risk of FGM.

Signs that FGM might happen:

- A relative or someone known as a 'cutter' visiting from abroad.
- A special occasion or ceremony takes place where a girl 'becomes a woman' or is 'prepared for marriage'.
- A female relative, like a mother, sister or aunt has undergone FGM.
- A family arranges a long holiday overseas or visits a family abroad during the summer holidays.
- A girl has an unexpected or long absence from school.
- A girl struggles to keep up in school.
- A girl runs away – or plans to run away - from home ([NSPCC](#))

Signs FGM might have taken place:

- having difficulty walking, standing, or sitting
- spending longer in the bathroom or toilet
- appearing quiet, anxious, or depressed
- acting differently after an absence from school or college
- reluctance to go to the doctors or have routine medical examinations

- asking for help – though they might not be explicit about the problem because they are scared or embarrassed ([NSPCC](#))

Useful information:

[Female Genital Mutilation Statutory Guidance](#)

[Local partnership guidance](#)

Forced marriage

A forced marriage is non-consensual. Either person could be forced/pressured in several ways, including physically, psychologically, financially, sexually, and emotionally. It is a criminal offence in England and Wales.

An arranged marriage is different. The families of both spouses take a leading role in arranging the marriage, but the choice of whether to accept the arrangement remains with those who are considered for marriage.

We are aware that the legal age for marriage in the UK has risen to 18, regardless of parental consent. The DSL will follow the local safeguarding procedure and, if necessary, seek advice from the Forced Marriage Unit on 020 7008 0151 if a concern comes to their attention.

Useful information:

[Freedom charity](#)

[Handling cases of forced marriage guidance](#)

[National FGM Centre](#)

Modern slavery

Modern slavery is a crime whereby a person uses another person, by means of deception or coercion, as a possession for the purposes of exploitation. We are aware modern slavery exists in the UK and that some victims are children.

Usual places modern slavery occurs includes:

- the sex industry, including brothels
- retail: nail bars, hand car washes
- factories: food packing
- hospitality: fast-food outlets
- agriculture: fruit picking
- domestic labour: cooking, cleaning, and childminding

Victims can be forced into criminal activities such as cannabis production, theft, or begging.

The DSL will seek advice and support from children's services who may in turn make a referral to the National Crime Agency via the National

Referral Mechanism (NRM). Further advice can be provided directly by the modern slavery helpline on 0800 012 1700.

Useful information:

[Modern slavery: how to identify and support victims](#)

Private fostering

A private fostering arrangement is when someone other than a parent or a close relative care for a child for a period of 28 days or more, with the agreement of the child's parents. Close relatives are defined as stepparents, grandparents, brothers, sisters, uncles, or aunts. It applies to children under the age of 16, or under 18 if the child is disabled.

The Jack and Jill Family of Schools is aware that, by law, a parent or other persons involved in making a private fostering arrangement must notify children's services as soon as possible. We have a duty to inform children's services of this arrangement if they have not been notified, but we will encourage parents and private foster carers to do so in the first instance.

Useful links:

[Looking after someone else's child](#)

[Local partnership guidance](#)

Preventing radicalisation and extremism

While some children are more susceptible, any child can be radicalised into terrorism. We take our [statutory duty](#) to prevent children from becoming terrorists or supporting terrorism seriously.

Radicalisation is the process of a person legitimising support for, or use of, terrorist violence. It can occur over a period or quickly.

Extremism is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs. This includes calling for the death of members of the armed forces.

To prevent children from being radicalised into terrorism, we make sure:

- endangers or causes serious violence to a person/people
- causes severe damage to property, or
- seriously interferes or disrupts an electronic system.

The use or threat of terrorism must be designed to influence the government or to intimidate the

public and is made for the purpose of advancing a political, religious, or ideological cause.

To prevent children from being drawn into radicalisation, we make sure:

- Our filtering and monitoring systems will prevent and protect children from accessing extremist material.
- Pupils are taught about British Values and staying safe online via the curriculum.
- Children are provided with a safe space to discuss controversial issues and the skills they need to challenge extremist views.
- Staff are trained to spot the indicators of radicalisation and extremism and how to report concerns as soon as possible.
- The DSL attends Prevent awareness training and is aware of the latest guidance.
- We perform a risk assessment which assesses how our learners or staff may be at risk of being radicalised into terrorism (including online) using the counter terrorism local profile and updates from the local partnership.

The [Educate against hate](#) government website lists signs that could indicate that a child is being radicalised:

- becoming increasingly argumentative
- refusing to listen to different points of view
- unwilling to engage with children who are different
- becoming abusive to children who are different
- embracing conspiracy theories
- feeling persecuted
- changing friends and appearance
- distancing themselves from old friends
- no longer doing things they used to enjoy
- converting to a new religion
- being secretive and reluctant to discuss their whereabouts
- changing online identity
- having more than one online identity
- spending a lot of time online or on the phone
- accessing extremist online content
- joining or trying to join an extremist organisation

If you have concerns that a pupil may be at risk of radicalisation or involvement in terrorism, go to [section 6](#).

Useful links:

[Local partnership guidance](#)

[Protecting children from radicalisation: the prevent duty](#)

Child abuse linked to faith or belief

This type of abuse can happen anywhere across any community and/or religion. There are a variety of definitions associated with abuse linked to faith or belief. It can include, but is not limited to, the concept of belief in:

- witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)
- the evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- ritual or multi-murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies
- use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation.

If you suspect a case of child abuse linked to faith or belief, follow the safeguarding procedures in this policy. In addition, the Metropolitan Police's Project Violet team can be contacted on the non-emergency, 24/7 number: 101.

Useful links:

[Metropolitan Police advice](#)

[Short Youtube introduction video](#)

Fabricated or induced illnesses

Staff at the Jack and Jill Family of Schools are alert to the issues surrounding fabricated or induced illnesses. Fabricated or induced illness (FII) is a rare form of child abuse. It happens when a parent or carer, usually the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child.

Useful link:

[The Royal College of Paediatrics and Child Health \(RCPCH\) guidance](#)
